

# Australian wildlife

Southern Highlands: Full day

## Put the 'wild' back into *Wildlife*

This is an exceptional opportunity to experience the Aussie Bush in search of Australia's iconic native animals. We like to call them Australia's Big 5! - Koalas, Kangaroos, Platypus, Emus & Wombats . . . and much more.

This is an *in-the-wild* experience, travelling to private farmland & swathes of quintessential, pristine bushland in the Southern Highlands, just 90 minutes south of Sydney. Travel in a luxury 4WD equipped for great wildlife-viewing with a specialist Naturalist Guide to interpret all you see. Walk through towering forests of Grey Gums in search of koalas, look for platypus along the riverbanks, drive through woodlands as mobs of kangaroos & emus feed. After dinner, go night-spotting for nocturnal wombats, gliders & possums. We seek out the animals when they're most active, with a noon to evening tour that includes lunch & hearty country-style dinner in one of Australia's oldest country inns.

## Why not add . . .

Start the day with a behind-the-scenes tour at Taronga Zoo, with a Zookeeper-led tour that takes you into the enclosures to see, touch and feed the animals.

## Trip Highlights

- This is a genuine Nature trip, so every day is different. Some days we'll encounter mobs of emus, while others we may hear the grunt of a bull koala looking for a mate. Birdlife abounds, plus see possums, gliders and much more.
- The Aussie Bush is an unexpected highlight for travellers. Experience classic Bush in a remote location where you won't see another soul.
- You're accompanied by a Naturalist Guide to explain all you see and help you understand why Australia's wildlife & environment is so unique.
